Much thanks to the Alberta Sailing Association for generously donating Lauri Kalkkinen's time and travel for the event, as well. ### Synopsis by Stephen Reichenfeld

What a great weekend of racing at WSC at the Laser Canadian Masters where there were over 40 Lasers on the line. Many thanks to all at WSC and the sponsors for pulling off the event and arranging with the Gods for such awesome conditions. Maybe we need to arrange somehow for a Volvo lease for a year as first prize. Any ideas?

For those that weren't there Saturday and Sunday we even saw Mark Lammens and Michael Hooper pull on cunningham and full out hiking as they duked it out at the front of the pack. The courses were long with Peter vM setting a 50 minute race target time so those windward legs provided plenty of opportunity to show off your fitness (or not) and the downwind legs had great surfing and planing conditions with the occasional carnage after a big gust (30 knots were recorded).

Congratulations go out to all those that participated in pretty tough conditions, special mention to Mark Smillie who finished all the races and was still smiling at the end, to Lesley who kept me out when I was feeling spent and ready to head in (after I yelled to her over the sound of the wind and flapping sails, she responded "Go in ... Why?"), to Thom who hung in to finish after sailing the longest 50 yards of his life, to our GGM and Legend sailors who keep us all inspired to carry on. Not to forget the podium ...

overall 1<sup>st</sup> Bob Britten, 2<sup>nd</sup> Mark Lammens, 3<sup>rd</sup> Michael Hooper, 1<sup>st</sup> Women Lesley Reichenfeld.

The visiting coach, Sean Evans, mentioned to me that he felt inspired after seeing the performance of all the Masters group. The young pup is now looking forward to turning 35 someday (a while from now) so he can qualify as an Apprentice. Watch out Evan, Ian(s), Brayden, Eric, Luke; you could be racing against him for years to come. (and thanks Sean for giving me a bit of room for one the best starts of my life).
