VIDEO CALLING TIPS

- 
MUTE YOURSELF WHEN YOU AREN'T SPEAKING
 Even quiet background noises are distracting. If you use the mic built into a laptop, avoid typing when un-muted. Speak at a normal volume.
- 
MINIMIZE INTERRUPTIONS
 Notification noises are very loud to other participants in on a call. Set any alerts to silent and find a quiet place to video call.
- 
WEAR HEADPHONES
 It is much easier to hear each other and will help prevent mic feedback. Many headphones have built in mics that are great for video calls.
- 
DON'T TALK OVER EACH OTHER
 Lag can make asking questions out loud difficult. Instead, try raising your hand or send a text chat. Use "thumbs-up/down" when able.
- 
AUDIO OR VIDEO FREEZING ?
 You may have a bad internet connection. Try turning off your video, or using an ethernet connection, especially with bigger groups calls.

In order to be able to cast your vote, you will **need** to have one zoom account per vote.

Once we start voting

We will send all the people that are eligible for a vote into a separate room.
