

ASA Equipment report

This past year the equipment for the ASA was repaired.

The 5 boat trailer was rewelded and the box repaired and the whole trailer painted, and new carpet on the racks.

Elmo was cleaned and sun bloc applied, and a new 40hp engine installed. The trailer was also repaired and painted, and axle repaired and new wheel seals installed.

Roly was cleaned and sun blocked , and a new water impeller installed, Oil was changed, and floor boards repaired.

A new Far East boat was acquired and I picked it up in Montreal, the 60hp engine off Elmo was installed, that engine also had a new water impeller, and oil changed.

The 2.4 boats also went on the water this year.

Thank you,
John C
